# Three challenges

## 1<sup>st</sup> challenge – consortium was born

- Realized that I had to be a LP
- Analyze all the necessary documents
- Created initial logic in EOI

## 2<sup>nd</sup> challenge – IL needed intervention

- [Miro board](#)

## 3<sup>rd</sup> challenge – project started

- Need for effective management and achievement of planned results

# Project managment tools

## Communication tools

- GD
- Slack

## Monitoring tools

- Partner Overview table
- Gantt Chart

## Quality Assurance:

- Establishment of IQMB
- Acquiring feedback from Scientific partners (Google forms)

## Email Assistant

- ChatGPT

# Next tools...

... TBD
