This project is supported by the Interreg Danube Region Programme project co-funded by the European Union

1

Danube region projects didn't take a break this summer!

From 16-18 July 2024, over 30 experts from nine countries gathered to explore sustainable mobility solutions in the town of Uničov cz. With its impressive cycle path network built over the past 20 years, Uničov has earned the title of Czechia's most bike-friendly town!

By showcasing real-world examples and fostering collaboration, our #Active2PublicTransport project is paving the way for smarter, greener transportation in the Danube region. 🌟

Pilot Actions (Act. 3.4)
Questions, comments, ideas?

Social Media In-depth Explanation

Differences between social media platforms

Which social platforms does your brand use (top 10)?

● B2B ● B2C

Social media marketing goals 2024

2024

Increasing brand awareness + reaching new audiences

Driving traffic to your website

Increasing overall revenue + sales

Getting a better understanding of your customers and their needs

Fostering relationships with your customers and increasing brand loyalty

Content Creation and Management

Types of content: posts, videos, stories, live

Social Media Image Sizes 2024

			
Profile photo	320 x 320	170 x 170	400 x 400
Landscape	1080 x 566	1200 x 630	1200 x 627
Portrait	1080 x 1350	630 x 1200	627 x 1200
Square	1080 x 1080	1200 x 1200	1080 x 1080
Stories	1080 x 1920	1080 x 1920	N/A
Cover photo	N/A	851 x 315	1128 x 191

Content Creation and Management

Types of content: posts, videos, stories, live

video length 90s ideally, possible to upload longer, but ads don't allow longer

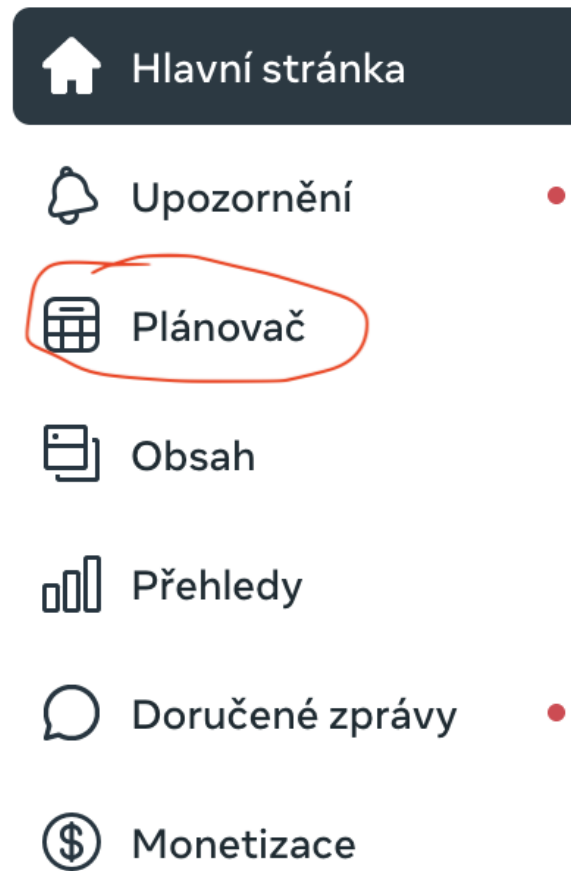

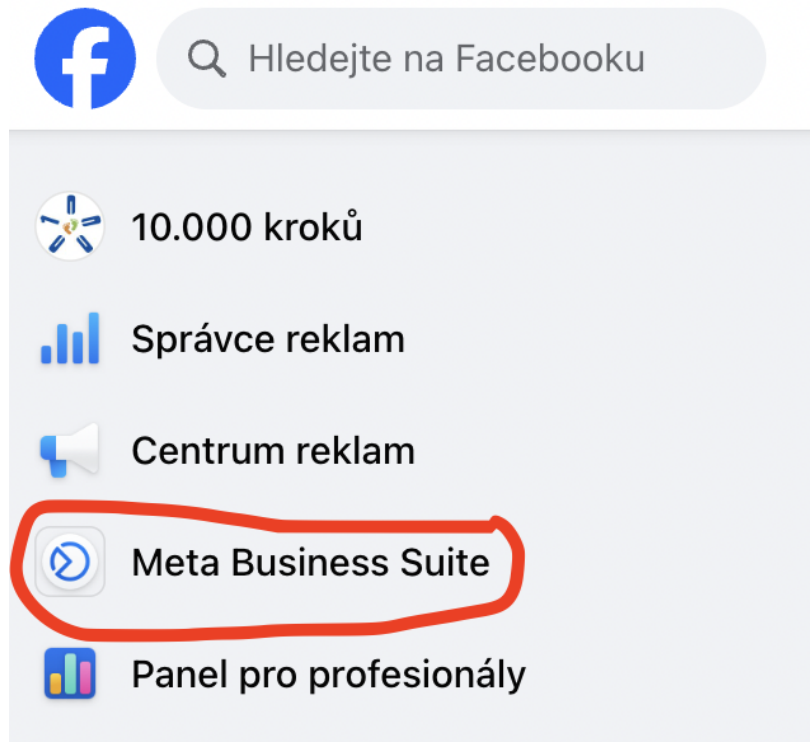

- subtitles = always if someone speaks in the video, don't forget about safe zone of subtitles!
- Less text on instagram, more text is better for LinkedIn and Facebook. For LinkedIn narratives work well.
- Follow all partner's SOME so you can share and comment :)

Content Creation and Management

Balancing informative, engaging, and promotional content

- 1) **Follow the 80/20 Rule:** 80% of your content should be valuable and engaging, while 20% should be promotional.
- 2) **Educational Content:** Share tips, how-tos, and informative articles about your industry. This builds trust with your audience.
- 3) **User-Generated Content:** Encourage your followers to share their experiences with your brand. This not only provides engaging content but also serves as an authentic promotion.
- 4) **Entertaining Content:** Post memes, behind-the-scenes videos, or fun facts to keep your audience entertained and engaged.

Best Practices for Engagement

Responding to comments and messages effectively

- respond within 2-4 h ideally and respond to every comment = helps algorithm
- responding to messages obviously builds good relations with your audience (don't forget about messages requests)

Encouraging user-generated content and community participation

- Encourage Reviews and Testimonials
- Leverage Social Media Contests and Challenges
- Harness the Power of Hashtags
- Collaborate with Influencers and Brand Ambassadors

Best Practices for Engagement

Hashtags & tags

- #A2PT (is also used in few posts as A2 Physical Therapy), #active2publictransport #interregdanube
- recommended amount of hashtags per post is 3-5
- commenting and sharing helps algorithm way more than just a like
- work with tags - tag key stakeholders and account connected to the post, make post collaboration with other profiles for bigger reach
- main language is English, but do not be scared to use your own - all social media now translate every post to the language set on your device

Practical Examples

graphic design,
Slovakia

Practical Examples

PEŠPOTI PO SLOVENIJI

Izkoristite poletne dni za raziskovanje Slovenije peš. Uživate v čudovitih naravnih lepotah in hkrati zmanjšajte svoj ogljični odtis.

REPUBLIKA SLOVENIJA
VLADA REPUBLIKE SLOVENIJE
MINISTRSTVO ZA OKOLJE, PODNEBJE IN ENERGIJO

KJE SE LAHKO KOPAMO?

Preverite, kje kakovost vode spremljajo vsaj 14 dni.

MINISTRSTVO ZA OKOLJE, PODNEBJE IN ENERGIJO

CENE NAFTNIH DERIVATOV

Cene bencina, dizelskega goriva in kurilnega olja ostajajo nespremenjene.

- bencin: 1,514 € / liter
- dizel: 1,528 € / liter
- kurilno olje: 1,146 € / liter

Cene veljajo: 13.-26. avgust

REPUBLIKA SLOVENIJA
MINISTRSTVO ZA OKOLJE, PODNEBJE IN ENERGIJO

1800 novih parkirnih mest za kolesa na železniških postajah

REPUBLIKA SLOVENIJA

MINISTRSTVO ZA OKOLJE, PODNEBJE IN ENERGIJO

Slovenia

Practical Examples

Inform about any news in your city, examples:

- buses, trains for free in Palma de Mallorca for residents
- 50 cents for using public transport in Queensland - [video here](#)

Questions, ideas?

Greenwashing & how to avoid it

What is Greenwashing?

What is Greenwashing?

53% of green claims give vague, misleading or unfounded information

40% of claims have no supporting evidence

Half of all green labels offer weak or non-existent verification

There are 230 sustainability labels and 100 green energy labels in the EU, with vastly different levels of transparency

Source: <https://www.bioazul.com/en/greenwashing/>

Green Claim Directive (adopted by EU Parliament in March 2024)

- **Transparency:** Companies must substantiate environmental claims (e.g., "eco-friendly," "carbon neutral") with clear, scientific evidence.
- **Standardized Verification:** Independent verification of green claims will be required to ensure accuracy and avoid vague or misleading statements.
- **Ban on Generic Claims:** Vague claims like "100% green" or "environmentally friendly" will be prohibited unless proven with solid data.
- **Product Comparisons:** Comparative claims about environmental benefits (e.g., "greener than...") must be clear, using equivalent metrics across products or services.
- **Enforcement and Penalties:** Non-compliance could lead to fines and sanctions, including penalties of up to 4% of a company's annual turnover.
- **Focus on Consumer Protection:** The directive aims to empower consumers by ensuring that they can trust sustainability labels and marketing messages.

What might be considered as Greenwashing in the transport?

What is the EU's Response to Airline Greenwashing?

By Charlie King

SHARE

May 05, 2024 • 4 mins

Credit | Daniel Garrido

The EU has identified 20 airlines using greenwashing to suggest that consumers can offset carbon emissions of flights – and is working to put a stop to it

ADDRESSING GREENWASHING IN THE AIRLINE INDUSTRY:
THE IMPACT OF THE "GREEN CLAIMS" DIRECTIVE

[Home](#) > [Insights & events](#) > [Articles](#)

AUTHORS

NICOLA BROADHURST
Partner
+44 (0)1483 734228
[Send an email](#)

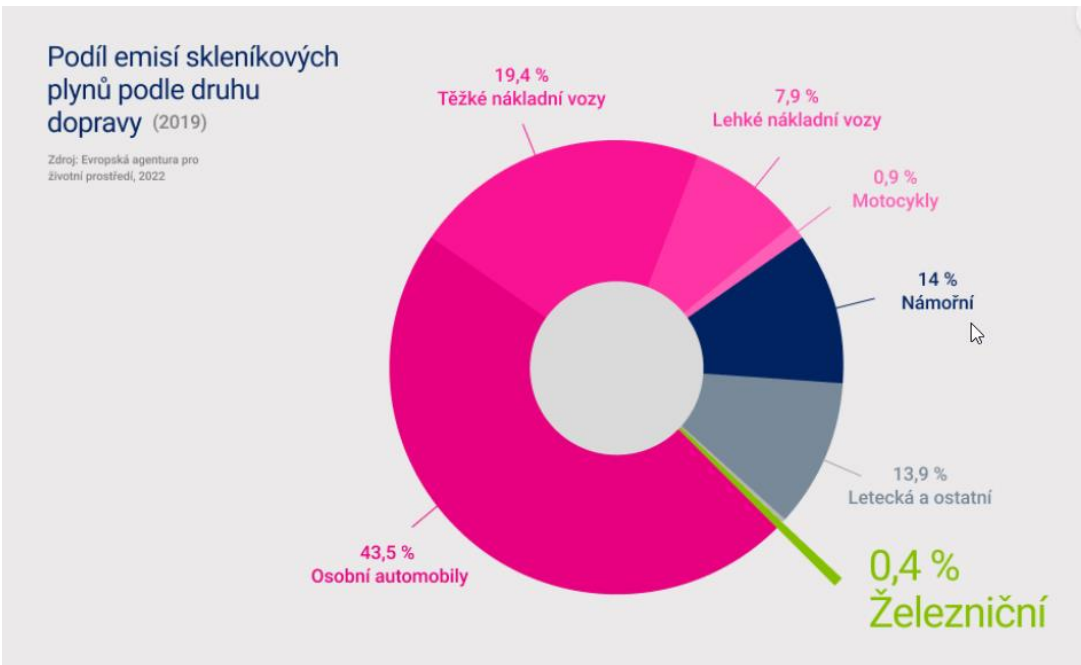

On 30 April 2024, the European Commission and EU consumer authorities took action by writing to 20 airlines, expressing concerns about their potential greenwashing practices.

This move has come just one month after the European Parliament adopted its position on the proposed "Green Claims Directive" (Directive). Under this Directive, EU Member States have 24 months from its implementation to incorporate its provisions into national law. Businesses (including airlines) failing to rectify their non-compliant practices within this timeframe risk breaching the Directive and facing associated penalties.

What is NOT Greenwashing?

Trasa Praha – Brno	Vzdálenost	Uhlíková stopa osoba/km	Emise osoba/trasa
vlak railjet	254,2 km	38,17 g CO ₂	9,7 kg CO ₂
běžné osobní auto	206,8 km	159 g CO ₂	32,88 kg CO ₂

Car vs Train: 4x lower carbon footprint

Rail: 0,4 % of total GHG emissions
